**Notes applicable to the process**

No.	Workstep	Description
1		Wait for orderReview to complete before proceeding
2	Order Submission	An order is placed online by a customer, or at a dealership.
3	wsAETF	Initiates vehicle build process, by calling an OpenEdge WebService. This is simply a request for a vehicle to be built; the OpenEdge build process calls back into Savvion when it's done.
4	Or 1	Vehicle is in dealer inventory at this point
5	Manufacturing Complete	The vehicle build process (OpenEdge) has completed; this is the 'response' portion of the build request. OpenEdge will call back into the Savvion process via a WebService call (WebServices Out, in ABL parlance).
6	Dealer review	The salesperson at the dealership reviews the order (checks whether the vehicle is in stock). This is done in the AutoEdge GUI for .NET application, which calls back to the Savvion BPM process when done.
7	VehicleOrderResubmit	There's something requiring the customer's input for review. The customer receives an email notification that they need to resubmit the order.
8	Customer Handoff	Customer receives keys, paperwork, vehicle
